Shimmering pigment powders are mixed and swirled to create a beautiful marbling effect that acts as a background for the ashes. Up to three different colors may be chosen for the background behind the ashes.

The ashes are then placed in a separate layer to artfully showcase the cremains of a beloved pet or person. Simple designs or patterns may be created with the ashes if desired. Shown below are a few standard styles, but more options are available by request.

***Granite Effect**

If the desired effect is to have the ashes be more hidden, they may be mixed with the first layer of colors. This method will show only small flecks of the ashes, similar to a granite effect.

A simple bronze (not pictured) or silver paw print design (pictured below) may also be embedded in the pendant at no extra charge to showcase the passing of a pet. Other shapes (such as hearts or crosses) may be incorporated as special order. Cremains will be incorporated with a Scattered Pattern if this option is chosen.

Silver Paw Print

We offer 20 unique stock colors to choose from or matching other specific colors can be done to the best of our abilities as a special order.

Up to three separate colors may be selected per pendant. Colors will be marbled and swirled together, which may slightly alter each hue in the final product. Due to the qualities of the resin and iridescent pigment powders used, each individual pendant is as unique as the ones we have lost. No two will ever be the same.

Glass Remembrance

Suspending a life

In glass ...

We carry a complete line of Glass Remembrance Jewelry and Memorial Tributes.

Glass Remembrances are created by glass artists who create a work of art that contains a small portion of the actual cremains of your loved one and keepsakes that encase jewelry, flowers and other memories. In today's highly mobile society people can be separated from a dear friend's resting place. They create portable tributes that can always be part of your life.

Handling a person's cremains is a huge responsibility. All of the cremains are handled separately; hand sifted and used individually in each piece of glass creating a permanent work of art. All of the tributes are handmade in the USA and individually signed by the artist. 'Glass Remembrances' are the perfect gift, display, or remembrance of a loved one to bring the continued comfort of keeping that loved one eternally near.
